Project Title : - Watch Ecommerce

Brief of the Project : -   Well Watches

Well watches is an ecommerce website that sells watches.

The user can interact with the website with or without login.

The website is semi dynamic with the use of File system through technologies like javascript.

Primary web development tools like HTML , CSS , JAVASCRIPT are used.

Functionalities : -

- ### Login & Registration page(File system)

  User can login & register to the website.

- ### Home page

  This is the main page or we can say Home of the entire website.It shows the basic product and utility avaliable.

- ### Personalized category

  A personalized area for each category to sort the avaliable Watches into different kind by technology or gender.

- ### Cart

  Ease of shopping experience through the use of cart.

- ### Bill Generation

Html Code

1. cart.html
